EDUCATION

University of Central Florida

Master of Science, Computer Science

Orlando, FL, USA

Aug 2027

Vemana Institute of Technology

Bangalore, India

Bachelor of Engineering, Electronics and Communication Engineering

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Machine Learning
- Artificial Intelligence
- Parallel and Distributed Databases
- Natural Language Processing (NLP)
- Basics of Cybersecurity 101 - TryHackMe Course (Linux, Windows, Networking, BurpSuite)

EXPERIENCE

LakshyaSpace, Bangalore

May 2024 - July 2025

Freelance Data Analyst

- Skills: Python (Pandas, NumPy), SQL, Excel
- Analyzed large-scale sales datasets to extract actionable insights and support data-driven decision-making.
- Built automated data processing pipelines using Python, improving efficiency and reducing manual effort.
- Performed data cleaning, transformation, and visualization to communicate insights effectively to stakeholders.

CDAC, Bangalore

April 2023 - Nov 2023

Intern - Web Development, Machine Learning

- Skills: Python, SQL, MySQL, React.js, Node.js, Express.js, HTML, CSS, Git
- Developed a full-stack Student Dashboard using MERN stack to enable efficient data management and user interaction.
- Designed and implemented RESTful APIs for handling user requests and backend data processing.
- Collaborated in an agile team environment, contributing to system design discussions and technical documentation (SRS).
- Assisted in debugging and troubleshooting to enhance system reliability and performance.
- Worked as a Teaching Assistant and Lab Assistant for courses on Python, Data Structures, SQL, and Machine Learning, helping students understand complex concepts and complete assignments.

DiamondPick, Bangalore

Oct 2022 - Jan 2023

Embedded Systems Trainee Engineer

- Trained in C programming with hands-on problem-solving and system-level tasks.

BEL (Bharat Electronics Limited), Bangalore

Sep 2021 - Oct 2021

Intern

- Worked under Strategic Communication and Unmanned Systems, gaining exposure to complex engineering systems.
- Demonstrated adaptability by quickly understanding new tools and workflows in a technical environment.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript, Java

Frameworks: React.js, Node.js, Express.js, Flutter

Databases: MySQL, MongoDB, Firebase

Tools: Git, Basics of Burpsite

Data Science: PyTorch, Scikit-learn, NumPy, Pandas

PROJECTS

Local Service Finder App (Ongoing)

July 2026 – Present

- Designing and building a scalable cross-platform mobile application to connect users with nearby service providers in real time.
- Developed responsive and modular UI components using Flutter, ensuring seamless user experience across devices.
- Designed and integrated RESTful APIs for efficient handling of user data, service listings, and dynamic content retrieval.
- Implemented structured data flow and state management to optimize performance and ensure smooth rendering.
- Working towards implementing location-based filtering and category-driven discovery to improve relevance and usability.
- Maintaining clean, modular, and scalable code using version control best practices with Git.
- Tech Stack: Flutter, Dart, REST APIs, Firebase, Git

Evaluating Hallucination Behavior in LLMs Under Different Prompting Strategies

April 2026

- Designed a controlled NLP experiment comparing zero-shot, few-shot, chain-of-thought, and constrained prompting on FLAN-T5-large across 100 SQuAD samples (400 total outputs).
- Built an automated hallucination annotation pipeline using a DeBERTa-v3 NLI model to classify outputs as correct, intrinsic/extrinsic hallucination, extraction error, or refusal.
- Validated the pipeline against human-annotated labels on a stratified sample, computing Cohen's κ and full precision/recall/F1 classification reports.
- Tech Stack: Python, PyTorch, HuggingFace Transformers, Pandas, Matplotlib, Seaborn, scikit-learn

Automatic Pet Feeder using Python, RaspberryPi

April 2022

- Built an automated pet feeder system using Raspberry Pi to dispense food and water at scheduled times.
- Published a research paper in IJRAMT (Vol. 3, No. 9).
